

# JUNIOR ICE HOCKEY DEVELOPMENT ACADEMY

## JUNIOR DEVELOPMENT ACADEMY

Our Junior Development Academy is a great opportunity for kids to get a feel for playing ice hockey. Our Academy is open to non-registered children aged 4-16 years that have very little or no skating experience and have never played Ice Hockey before.

Participants will learn basic skating skills including: getting up when they fall, how to move on the ice (starting to skate/glide), basic stopping techniques & how to move in the hockey equipment. They will also be introduced to basic game structure, stick and puck skills.
